**CELEBRATING
50 YEARS
AS AN ICONIC
CANADIAN BRAND**

SQUASH.

Discover Black Knight’s 2026 squash lineup—refined and evolved in celebration of our 50th anniversary as Canada’s iconic racquet sports brand.

Each model is rigorously tested by top Canadian squash professionals, upholding the highest standards we’ve set since 1976. Built with premium materials for superior durability and performance, these racquets remain instantly recognizable by signature yellow grommets and bold cosmetics, with engraved taglines capturing the spirit of competition and camaraderie.

Highlights include the Pro XR for fast swings and expanded power, the iON Surge for torsional stability in hard-hitting play, and the Quicksilver Echo for agile precision in a striking chrome-blue finish. From the power-packed Magnum Strike to the agile Falcon, experience the fusion of technology, style, and five decades of Canadian squash tradition.

Quicksilver Echo

Step into the future with the **Quicksilver Echo**, the latest in our iconic Quicksilver series. This racquet combines a lightweight and hybrid head design with long main strings to deliver an exceptional balance of accuracy and swift swing speeds. Its striking chrome-blue exterior with a vibrant yellow interior not only enhances performance but also makes a bold statement on the court.

Features

Weight:	120g
String:	Supernick XL Micro
Balance:	Even
Rigidity:	88 Med.
Area:	487 cm ²

Pro XR

The **Pro XR** boasts an expanded head size for an even larger sweet spot, combined with improved torsional stability for unmatched ball-striking consistency. Retaining the lightweight teardrop frame and aggressive balance, the Pro XR swings fast yet packs surprising power, with its unique rigid cross-section profile ensuring precise hits.

Features

Weight:	125g
String:	Ultranick 18
Balance:	Head Light
Rigidity:	90 Stiff
Area:	495 cm ²

SQUASH ELITE RACQUET

SQUASH POWER RACQUETS

The Adaptive Fan Pattern (AFP) sets the Falcon apart, optimizing ball control for those crucial roll-out nicks. This innovative dense fan pattern increases string bed stiffness, providing enhanced control while maintaining power, thanks to the strategically placed longer main strings.

Built with Thermal Core (TC) technology, the Falcon undergoes a meticulous curing process using superheated air, both inside and out. This results in a uniformly cured frame that ensures greater durability and a more responsive hit, making your shots impactful and reliable.

Designed for quick reactions and easy maneuverability, the Falcon features a rounded handle, allowing you to outmaneuver your opponents with ease. The design, coupled with striking falcon head iconography, adds an element of shock and awe to your game, making a bold statement on the court.

As a testament to its excellence, the Falcon comes factory strung with Ashaway string, providing the perfect blend of power and precision. Elevate your squash game to championship levels with the Falcon – where power meets precision.

Falcon

The **Falcon** is engineered for impeccable speed, aggressive shot making and maneuverability on the court. The innovative dense fan pattern increases string bed stiffness, providing enhanced control while maintaining power, thanks to the strategically placed longer main strings. Outmaneuver your opponents with ease with the rounded handle.

Features

Weight:	125g
String:	SuperNick ZX Micro
Balance:	Head Heavy
Rigidity:	90 Stiff
Area:	477 cm ²

Magnum Strike

Introducing the **Magnum Strike**, an evolution of the Magnum 130, designed for intermediate players seeking unmatched power and a big sweet spot for maximum forgiveness. It boasts an industry-leading 523cm² head size, offering the largest hitting surface on the market. Enhanced with VibraPlate technology and a Bubble shaft design, this racquet minimizes vibration for a smoother, more controlled play.

Features

Weight:	135g
String:	SuperNick XL Ti
Balance:	Head Light
Rigidity:	92 Stiff
Area:	523 cm ²

iON Surge

The **iON Surge** continues the legacy of the Ion Galaxy PS, revered for its performance in high-stakes hardball doubles. It retains a thicker bridge and throat for unmatched torsional stability, and a stiff frame that ensures maximum responsiveness while maintaining a very forgiving hitting surface. Infused with Power Surge technology the iON Surge is designed to withstand the rigors of aggressive, hard-hitting rallies.

Features

Weight:	145g
String:	Ultranick 17
Balance:	Head Heavy
Rigidity:	93 Very Stiff
Area:	500 cm ²

BADMINTON.

Discover Black Knight's 2026 badminton lineup—proudly leading the sport as Canada's iconic brand in celebration of our 50th anniversary.

With deep roots in the Canadian badminton community since 1976, each racquet upholds our longstanding commitment to quality, durability, and peak performance.

Introducing the NEW True North Series—the Phantor SL, Polar Vortex, and Grizzly 30T—cutting-edge graphite models engineered for precision, power, and versatility, tested to deliver excellence at every level. These models have been designed to compete strongly in advanced badminton technology and offer retailers a Canadian option to their badminton customers.

In addition to our advanced options, Black Knight remains the industry leader in institutional badminton, offering rugged aluminum and hybrid racquets built for frequent, demanding play. Models like the Beast and Sceptre have equipped generations of players in schools across Canada!

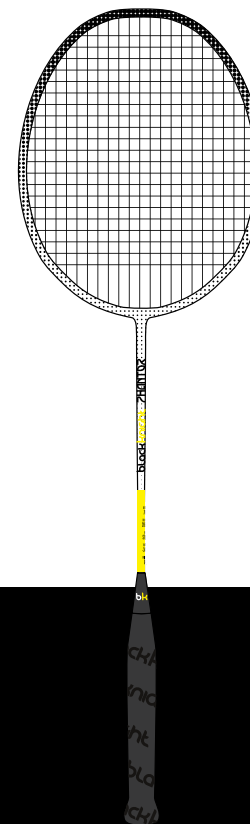

Experience the fusion of tradition, innovation, and uncompromising Canadian quality that has made Black Knight a trusted name in badminton for five decades.

INTRODUCING THE TRUE NORTH SERIES

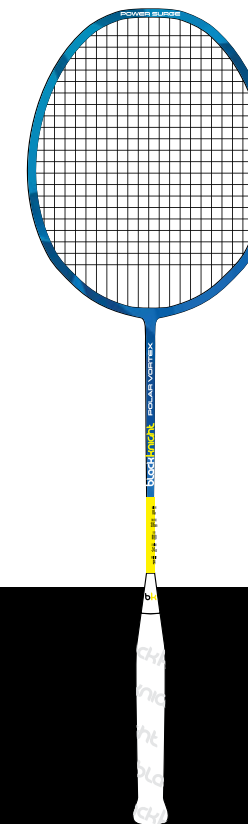

Introducing the True North Series, Black Knight's latest breakthrough in badminton innovation for 2026—engineered in celebration of our 50th anniversary as Canada's iconic racquet sports brand.

These cutting-edge graphite racquets deliver exceptional speed, power, and control, rigorously developed with input from top players to meet the demands of competitive play. Featuring sleek cosmetics with subtle northern-inspired accents and premium carbon graphite construction, the True North Series embodies five decades of Canadian performance heritage.

Phantor SL

Polar Vortex

Grizzly 30T

The **Phantor SL** is the ultimate precision weapon for advanced players seeking lightning-fast maneuverability and pinpoint control. Its super-lightweight design and stiff flex deliver explosive speed for rapid-fire net play and defensive retrieves, while the advanced graphite composition ensures outstanding stability during powerful smashes.

Features

Weight:	78g
Strung:	Unstrung
Ridigity:	88 Stiff
Length:	67 cm
Balance:	285mm (Head-Light)
Frame:	30T Carbon Graphite & Polymer Expansion Particles
Shaft:	46T Carbon Graphite

The **Polar Vortex** brings raw power to aggressive players who dominate with thunderous smashes and driving clears. The head-heavy balance and medium flex generate exceptional shuttle velocity and momentum, making it ideal for doubles specialists and baseline attackers who want to overwhelm opponents with relentless force.

Features

Weight:	85g
Strung:	MultiForce 68 White
Ridigity:	82 Med.
Length:	68 cm
Balance:	305mm (Head-Heavy)
Frame:	30T Carbon Graphite
Shaft:	40T Carbon Graphite

The **Grizzly 30T** is the versatile all-court hybrid built for players who adapt to any situation. Combining a balanced feel with stiff response, it offers quick recovery for defensive play alongside solid power on attack. Durable and forgiving, it's the perfect choice for competitive singles or mixed doubles where consistency and adaptability win matches.

Features

Weight:	84g
Strung:	MultiForce 68 Black
Ridigity:	92 Extra Stiff
Length:	67.5cm
Balance:	290mm (Even)
Frame:	30T Carbon Graphite
Shaft:	30T Carbon Graphite

PHOTON SERIES

The **Photons** react like a magic wand, and accelerate up to 20% faster than conventional models, putting your racquet and the shuttle together in an instant! With super light nano-carbon materials and a finely tuned distribution of weight and flex, these racquets react to your thoughts, yet still deliver the power of much heavier racquets, thanks to a perfect blend of technologies.

Photon 40t XL

Features

WEIGHT 75g
STRUNG Unstrung
RIGIDITY 82 Med.
LENGTH 68 cm
AREA 362 cm²
TENSION 21-30 lbs

“Take the shuttle early” is a key to success in badminton and Black Knights **Photon 40T XL** racquets react and accelerate up to 20% faster. The addition of 40T graphite allows this racquet to be strung at increased tensions up to 30lbs that power hitters prefer for greater accuracy. The 75g weight puts this in the Super light weight category for those demanding lightning fast reaction time.

Photon PCV XL

Features

WEIGHT 75g
STRUNG Ashaway ZyMax 69 Fire
RIGIDITY 82 Med.
LENGTH 68 cm
AREA 362 cm²
TENSION 20-24 lbs

The **Photon PCV XL** adds 1 cm to the Photon without changing the weight, increasing the power of this already impressive racquet. The extra centimeter is in the handle, allowing players to comfortably shift to a shorter grip as needed.

Photon PCV

Features

WEIGHT 75g
STRUNG Ashaway ZyMax 69 Fire
RIGIDITY 82 Med.
LENGTH 67 cm
AREA 362 cm²
TENSION 21-24 lbs

Extremely light, the **Photon PCV** accelerates reaction speed by up to 20%. The Power Channel groove enlarges the string surface without increasing head size, while the Vibra Plate Technology stiffens the head against torsion on impact and interrupts the transmission of shock through the frame to the handle. The result: an exceptionally solid hit with excellent control on off-centre shots, and outstanding performance for power hitters.

HEX SERIES

The **Hex series** models use Super G Reactive Graphite in a micro-woven matrix to generate faster frame recovery when flexed. The Hex frame uses its hex angularity for a stiff, aerodynamic cross-section that swings faster and hits harder. The Hex shaft has more lateral stability and resistance to torque than conventional round shafts.

Hex Force 360 S8

Features

WEIGHT 88g
STRUNG Unstrung
RIGIDITY 92 Extra Stiff
LENGTH 67 cm
AREA 362 cm²
TENSION Advanced: 21-24
 Expert: 24-28
 Pro: 28-32 lbs

Hex Force 360 S4

Features

WEIGHT 80g
STRUNG Unstrung
RIGIDITY 89 Stiff
LENGTH 67 cm
AREA 362 cm²
TENSION Advanced: 21-24
 Expert: 24-28
 Pro: 28-32 lbs

MAX FORCE SERIES

Black Knight **Max-Force** racquets complement and supplement the best a player can offer, with a highly reactive construction that maximizes the transfer of energy to the shuttle yet allows for delicate shots with fingertip control. This well priced racquet offers the newer technologies at an affordable price.

Max Force 60

Features

WEIGHT 82g
STRUNG Lonifiber
RIGIDITY 82 Med.
LENGTH 67 cm
AREA 362 cm²
TENSION 20-24 lbs

A lightweight, medium flex, pre-strung racquet designed for beginner to intermediate players. The **Max Force 60** features a 22 x 22 string pattern and uses high modulus graphite technology to make it lightweight and maneuverable. A great choice for players looking to take a step forward from an entry-level racquet.

EDUCATIONAL & TRAINING SERIES

This series of racquets offers the best possible combinations of durability and playability at different prices to respond to different budgets – from primary schools to universities.

It is important to remember that these models are designed for very frequent and demanding usage and are not the best choices for individual players looking for personal racquets.

BA-185 Collegiate

Features

- Exceptional performance and durability
- Light, strong titanium alloy
- Built-in replacement grip
- Lonfibre Plus durable string

BA-180 The Beast

Features

- Extremely durable
- Heavy duty aluminum and steel
- Built-in replacement grip
- Lonfibre Plus durable string

BA-150 Sceptre

Features

- Durable high-grade aluminum and steel
- Lonfibre string
- For high school and college use

BA-130 Squire

Features

- Designed for primary or junior high schools
- All steel

BA-190 Team Graphite

Features

- Serious school play
- Aluminum head
- Graphite shaft
- Built-in replacement grip

Diamond models are designed for beginners to advanced club players. The series includes models featuring graphite/aluminum and all graphite constructions.

When the time is right, the transition from a junior racquet to a standard length racquet is made easy with our Junior Series Rackets and the skills learned with the short racquet are retained. All models are suitable for both institutional and personal use, and a headcover is included.

Diamond 111

Features

- Weight: 95g
- Strung: Lonifiber
- Rigidity: Flexible
- Length: 67 cm
- Tension: 18-22 lbs

230 JR TORNADO

Features

- Weight: 120g
- Strung: Nylon
- Length: 60 cm
- Tension: 23-27 lbs

PICKLEBALL.

EXPANDING OUR 50-YEAR CANADIAN LEGACY INTO PICKLEBALL

Discover Black Knight pickleball paddle lineup—crafted by Canada’s iconic racquet sports brand. As a household name across Canadian racquet sports and a rapidly growing force in pickleball from coast to coast, Black Knight brings performance expertise to the fastest-growing game in North America.

Whether you’re driving unstoppable winners, mastering soft dinks at the kitchen, or unleashing lightning-fast volleys, there’s a Black Knight paddle engineered to elevate your game.

Our premium paddles, built with advanced honeycomb cores and cutting-edge materials, deliver the perfect blend of power, control, speed, touch, and feel to match every playing style.

Join the thousands of Canadian players already trusting our legendary quality—find your perfect match and dominate the court with confidence.

ASHAWAY STRING | SQUASH

Powerful PowerNick® 18 main strings combine with softer, more flexible PowerFusion™ cross strings to create a perfectly blended string bed with power, durability and low shock.

Features

SIZES
9M, 110M

UltraNick 18 is 1.15 mm in diameter for optimum soft feel and control of the ball. Textured surface and thin gauge maximizes ability to spin and cut the ball.

Features

USAGE
Top professionals and amateur players.

Softer playing string with excellent power and control.

STRING TENSION
Up to 30lbs.

SIZES
9M, 110M

UltraNick 17 is 1.25mm in diameter for superior durability and string life. Textured surface increases ability to spin and cut the ball. The UltraNick family of squash strings features a multifilament Zyex core encapsulated with a high tenacity monofilament nylon wear surface.

Features

USAGE
Top professional and amateur players.

Softer playing string with excellent power and control.

Maximizes durability and string life.

STRING TENSION
Up to 35lbs.

SIZES
9M, 110M

PowerNick 18 is 1.15mm in diameter for optimum power and resilience. The textured surface and thicker diameter combine to ensure maximum durability and spin performance for the life of the string. Features a monofilament Zyex core encapsulated with a high tenacity monofilament nylon wear surface.

Features

USAGE
Top professional and amateur players.

Superior durability and playability.

Excellent tension stability at all tensions.

Optimum combination of power and durability.

STRING TENSION
Up to 32lbs.

SIZES
9M, 110M

MultiNick 18 is 1.15mm (18 gauge) in diameter for superior feel and ability to cut and spin the ball. The polyurethane resin coating provides excellent toughness and durability, as well as offering a soft and powerful string bed.

Features

USAGE
Top professional and amateur players.

Polyurethane resin coating for excellent durability.

For players who like to cut and spin the ball.

STRING TENSION
Up to 35lbs.

SIZES
110M

ASHAWAY STRING | SQUASH

SuperNick ZX SuperNick ZX Micro SuperNick XL SuperNick XL Micro SuperNick XL Ti

SuperNick ZX strings feature a multifilament nylon core encapsulated with a hi-tech ZX wear layer of Zyxex® filaments. Multifilament construction for gut-like performance with precise touch. ZX wear layer increases durability and tension maintenance. Textured surface increases the ability to impart spin and cut the ball.

Features

USAGE
Top professional and amateur players.
Players looking for superior durability and tension maintenance.

STRING TENSION
Up to 40lbs.

SIZES

EYE-GUARDS

- Stiletto
- Guardian
- Turbo
- Overguard

NOTE: ALL LENSES ARE CLEAR

The **Stiletto** eye-guards are scratch resistant lens made of high impact polycarbonate. They are optically correct lenses with no distortion and the Bayonet temple arms allow for a secure, comfortable fit. An Anti-fog coating is applied and flow through ventilation technology to eliminate fogging.

The Guardian eye-guards offer the best fit and style possible, with adjustable arms that sit perfectly on your face, Anti-Fog coated lenses, and a super comfortable cushioned nose piece. These eye-guards are also ASTM 803 approved for use in squash and badminton, so you can have peace of mind knowing you have the highest level of protection. With a sleek design, injection molded bayonet style arms, and adjustable angles, these eye-guards have it all.

The Turbo eye-guard is made with scratch resistant lenses of high impact polycarbonate with Anti-Fog coating. The adjustable temple arms allow for a comfortable custom fit. The Turbo eye-guard has been created to allow an unobstructed field of vision including peripheral vision with no distortion. With vented air flow channels it provides additional anti-fogging capabilities.

Designed to fit comfortably over most prescription eyewear, to offer approved protection to players wearing prescription glasses.

This eye-guard has passed ASTM F803 testing for the racquet sports (squash, badminton, tennis, racquetball, paddleball).

These models pass the ASTM F803-03 safety standards required for competitive play.

SQUASH BALLS

- Tru-Bounce Blue Dot
- Tru-Bounce Double Yellow
- E-Z Squash

TRU-Bounce Squash Balls are the result of extensive testing and development in order to create a squash ball that matches the current standard but surpasses it in terms of consistent performance and durability.

Sold by the dozen.

Features

Suited for beginners and young players.

Fast bounce and high speed.

Tru-Bounce Double Yellow Dot squash ball is the slowest ball by Black Knight. Black Knight's Tru-Bounce balls are the result of many months of testing and development in order to create a double yellow dot squash ball that matched the speed of the current standard tournament ball.

Sold by the dozen.

Features

Suited for advanced players and competition.

Low bounce and slow speed.

E-Z Squash Foam Balls are designed to be lightweight, soft and bouncy enough to allow juniors to safely rally with each other (and so parents can rally with their young children too). These balls are specially dimpled to recreate a much truer ball trajectory than a standard foam ball.

Features

Developed for kids 3-7 years old.

Big bounce and stays in the air for a long time.

PICKLEBALLS

- Indoor Pickleballs
- Outdoor Pickleballs

12 PACK
Black Knight Indoor Pickleballs—your ticket to pickleball perfection, rain or shine! Designed with precision and passion for the game, these little wonders are crafted to elevate your indoor pickleball experience.

12 PACK
Black Knight Outdoor Pickleballs—the epitome of pickleball resilience and outdoor adventure! Crafted with durability and performance in mind, these balls are your perfect companions for thrilling matches under the open sky.

SHUTTLES

The **badminton shuttles** are designed to withstand the high-intensity and speed of the game, making them a great choice for competitive and recreational play. The shuttles are lightweight and aerodynamic for increased control and accuracy. They also feature a long-lasting cork construction for superior durability.

Quick Dry

Ultimate Cushion

12 PACK

Designed for regular club level play for players who prefer the playability of a feather shuttle, but don't want the cost of a championship grade feather.

12 PACK

Designed for championship level play. This is our highest quality shuttle, but will travel slightly slower for high altitude locations. In thinner air, the shuttle travels faster than at sea level conditions, so this speed shuttle is ideal.

6 PACK

With its rapid spin and precise flight, the TruFlight4000 (TF4000) is an all-around excellent performer, whether playing delicate shots at the net, or smashing with full force. Black Knight TruFlight4000 (TF4000) comes in neon yellow skirt for better visibility for indoor and outdoor. The shuttlecock has good durability for long lasting play.

Designed with a polyamide and polyurethane base, with a special foam ridge running the length of the grip, and coated with polyurethane, the Contour Grip adds a third dimension to grip comfort and security.

Contour Grip is sold in packages of two grips.

Our best and most popular over grip, The Performance delivers exceptional, long lasting gripping performance.

Performance Grip is sold in packages of 3 grips and is 110 cm in length.

COLOURS

A tacky polyurethane coating over a cotton base. Thin enough to leave grip size virtually unaffected, yet thick enough to add important cushioning and moisture absorption.

Ultra Grip is sold in packages of two grips.

COLOURS

3-dimensional Contour Re-Grip does not just lie flat on the racquet handle like most grips, but features a ridge of EVA foam that creates a cushioned contoured surface for a comfortable secure grip.

The Contour Re-Grip is sold one per package.

THICKNESS
1.5mm plus foam ridge

LENGTH
110 cm

This popular re-grip features a low-profile ridge winding up the handle, providing extra cushioning and a friction point for a surer hold on the racquet. It is also perforated to improve the wicking of moisture from the outer layer to the cotton base.

Competition Re-Grip is sold one per package.

THICKNESS
1.5 mm thick

LENGTH
110 cm

This exciting new replacement grip combines the secure grip and comfort of the Ultimate Cushion re-grip into a thinner replacement grip, with a unique mesh formation for improved wicking of moisture.

Sold one per package.

THICKNESS
1.35 mm

Comfortably cushioned, the Ultimate Cushion re-grip has exceptional, long lasting gripping properties for the most demanding players. Ultimate Cushion is the featured grip on all Black Knight high end squash racquets and many badminton models.

Sold one per package.

THICKNESS
1.8mm

BACK PACKS & RACQUET BAGS

Black Knight Racquet Backpacks and **Squash Racquet Bags** are the perfect way to keep your gear safe and secure while on the go. Featuring a lightweight and durable design, these bags are made with heavy-duty nylon and reinforced stitching, ensuring that your gear is protected and stays secure.

The backpacks come with two large main compartments, offering plenty of space for all your racquets, balls, and other sports gear. The squash racquet bags are designed with three separate compartments, allowing you to easily organize and store your racquets, balls, and other accessories.

Both bags also come with comfortable shoulder straps and a padded back panel, providing the best possible carrying comfort.

Whether you're heading to the court or just out for a day of fun, Black Knight Racquet Backpacks and Squash Racquet Bags will keep your gear safe and secure.

Competition Bag

Performance Backpack

Pro Series Tour Bag

The **Black Knight Competition Bag** is the perfect companion for your games! It features two main compartments, one of which is thermal lined to keep your racquets safe. There's also a separate ventilated compartment to store your shoes. Plus, you'll find four other compartments with zippers to store all your other accessories and items. Get the Black Knight racquet bag and you'll have everything you need for a great game!

The **Black Knight Performance Backpack** is the perfect accessory for any squash enthusiast. This premium backpack features a padded racquet compartment, perfect for carrying up to 2 of your favourite racquets with ease. The front compartment provides ample storage space for all your accessories, while two side pockets allow you to keep your drinks and balls close at hand. Whether you're heading to practice or a tournament, the Black Knight Racquet Backpack will have you fully prepared.

The **Black Knight Pro Series Tour Bag**, the perfect bag for all your racquet sports needs! This bag has it all; a thermal lined compartment to keep your racquets safe from the elements, an anti-microbial compartment to keep wet, damp clothes from getting ruined, a separate ventilated compartment to store your shoes, and four other compartments with zippers to store all your other accessories and items. This bag is made of durable, heavy-duty material with reinforced stitching and strong zippers so that it can handle all your toughest racquet sports challenges. The Black Knight Premium Racquet Bag also features adjustable straps and a comfortable carry handle for easy transport.

APPAREL.

Black Knight **apparel** and **bands** provide premium performance and protection. Crafted from durable fabrics, they offer superior breathability and comfort to keep you cool and dry during your most intense matches.

High-Performance Shirt

This Black Knight tee is made from a high-performance, microfiber, polyester fabric with cutting edge moisture-wicking technology. With quality, comfort and style this shirt will keep you cool when you are working up a sweat on court.

SIZES
S, M, L, XL, XXL

Hoodie

The Unisex Black Knight hoodie feels soft and light with just the right amount of stretch for a loose-fitting technical hoodie. Made from 100% soft poly microfibre, the interior feels like fur while our moisture-wicking technology and breathable fabric will keep you dry and cool.

SIZES
S, M, L, XL, XXL

High-Performance Short

This Black Knight short is made from a high-performance, microfiber, polyester fabric with cutting edge moisture-wicking technology. These shorts have the flexibility, comfort and style that racquet sports athletes are looking for.

SIZES
S, M, L, XL, XXL

Headbands

Wristbands

Made with high-absorption cotton, featuring the Black Knight logo.

COLOURS

REVENGE Shoe
